Electric windlass

WALK THROUGH

One of the features of this great yacht is the ease you can move through out.

Boarding the boat from the starboard side is very easy with a disconnecting lifeline. Simple to step up from a floating dock.

Entering the cockpit, you find a roomy and comfortable navigation and entertaining area with great visibility.

Down the gangway on the easy to use steps, one immediately sees the very expansive interior that looks like a boat much larger.

To the starboard and aft, you will see the Guest head and the Guest Stateroom with easy access to the head.

To the port side and aft, you will see a very large storage area.

Forward of the storage area is the very ample galley with the Princess gimbaled stove, a double stainless steel sink and wine glass rack above.

From there you will find a large u shaped dining area and table with two classic oil lamps for a little atmosphere.

To the starboard side you will find a nice couch, the electrical panel and ample Navigation station.

Going forward is the Master Stateroom. Lockers and drawers are to starboard and at the foot of the bed is another flat screen TV.

Forward of the Master Stateroom is the Master head and separate shower.

See attached YouTube Video.

Comments

This popular and handsome Catalina is a perfect boat for the weekend sailor, racer or long distance cruiser with only a couple upgrades such as solar panels.

You can also count on excellent reliability and low maintenance so you can spend time with the family enjoying sailing comfortably.
