Accommodations

The Island Packet 35 is known for exceptional liveability and very large storage areas located underneath and behind settees. There are also three separate hanging lockers providing additional storage. V-Berth is forward with a large head next aft to port joined by a spacious separate shower (unusual in a yacht of this size). The main saloon has a bulk head mounted table with seating up to six along with storage behind it and the opposite settee. The port settee pulls out to make a double berth and also functions as the seat for the large navigation station. Cushions re-upholstered in 2010. The galley is to starboard of the companionway, and is one of the nicest ever designed for a yacht of this size. It features a huge fridge/freezer and double stainless steel sinks and great storage. The aft cabin is to the port of the companionway and has a hanging locker, cubbies for storage, opening ports and an opening overhead hatch. The 35 has excellent ventilation with eleven opening ports and five opening hatches along with well designed storage. Mermaid AC with digital controls. Village Marine Tech Water Maker.
