Ref No: RF939463
Price: 99,000.00
Built: 2002
Flag: USA
Model: Cutter
Condition:

Additional information

Description:

Ray

Creekmore designed heavy built ocean going vessels that sail extremely well in all weather `condition`s. This vessel was purchased as a finished hull and needed an interior and deck. The current owner has had professionals working part time on the boat for the last 8 built_ins and has invested over \$500,000 into the project. The boat was left 90% completed when abandoned by the builders. This beautiful Creekmore is ready to be finished and being sold at a huge loss. Their loss is your opportunity.

Anna

offers clean lines and a deep safe cockpit with all control lines running direct to the cockpit line clutches and self tailing winches. The bow sprit has twin bow rollers and a CQR anchor. A new electric windlass was installed with a separate battery bank dedicated for the windlass. The deck has Tread Master non-slip pads throughout and the stainless steel bow and stern rails are 1&1/2 inches thick and so are the stanchions. The SS arch holds the twin wind generators and built in davits and has room for solar panels and any other attachments needed. The aft lazette is huge with 2 opening hatches with built

in Vetus vents. The deck sports 6 closable dorades with SS protection bars, 17 SS opening port windows, 3 overhead hatches for excellent ventilation and all hand rails are stainless steel so there is no exterior wood to maintain. The aluminum toe rail offers great attachment points for halyards or fenders and has scuppers so the side decks hold no water.

The interior still needs some work, but the bulkheads are in, the tankage has been installed and plumbed, the Yanmar diesel is in great `condition` showing 80 original hours with twin racors and electric bilge pumps and all electrical wiring is done and very well labeled.

The interior is traditional with beautiful wood trim, 2 heads with showers, 2 private staterooms and lots of storage everywhere. The teak & holly sole will need some finishing and all new cushions and mattresses will need to be ordered. If you have the desire to cruise the world or just go down island, this is the type of blue water cruiser you will want. If Anna is of interest, please call Barry at 954-873-1800 and set up your preview before someone scoops her up and sails away.
