U.S.A. Registered. One of a handful of cruisers built on a commercial fishing hull by Heffner of Hueneme, CA. Cherri L is a tough and capable cruiser. The present owner has logged over 20,000 miles between Seattle & Alaska including 6 round trip excursions of the Inside Passage since 2003. Continuous upgrades by the present and previous owners have turned Cherri L, with its commercial heritage and workboat sensibilities, into an ideal Northwest long range cruiser and comfortable liveaboard home!!
