**ATTENTION OFFSHORE CRUISERS!!!**

**Here is a nice example of the very popular and beautiful Cabo Rico 38 blue water full keeled cruiser that will take you anywhere you want to go in comfort and safety. Cabo Rico yachts are fast yet comfortable underway, the cutter rig makes her both safe and amazingly easy to sail. This proven Crealock design balances beautifully in both light airs and heavy weather. The hands off tracking ability combined with a fine turn of speed, have shown her to be a classic in every sense of the word, and contains the a mazing Costa Rican teak woodwork below, giving a warm and homey feeling which is difficult to find in today's boats.... if you are looking for a true, proven cruising boat this may be the one.**

25 gal fuel bladder for extended range, straps to deck and roll up for storage. Gravity drain into fuel tank.

**2015** Achilles 4 person inflatable floor dinghy.

Older Nissan 5hp outboard with integral fuel tank.

**2015** Forespar whisker pole and RigRite mast hardware.

New West Marine water pressure pump

Head rebuilt 2014

**2014** Replaced manual windlass with Muir Cheetah powered windlass – 200feet 5/16” chain

**2014** Spectra Ventura 150 watermaker installed

**2014** Battery compartment re-wired, engine battery relocated, 4. house battery added.

**2014** Yanmar 55 amp alternator replaced with Balmar 120 amp.

Added Edson teak cockpit table

Edson rail mount for outboard

**2014** Webasto AT5500 diesel boat heater

**2013** Kato Marine dinghy davits with solar panel risers.

**2013** 70 watt solar panels

**2013** Deck painted with two-part epoxy, white areas only.

Honda EU2000i portable gas generator with marine outlet

**2012** Hull painted from waterline stripe to gunnel, two-part epoxy

Re-glazed portholes **2015/2016**

All bulbs changed to LED's including running lights, huge power reduction

### **Additional Information**

First impressions, as they say, only get one chance, and few boats make a more lasting mark than a Cabo Rico. These winsome cutters, draped in teak, inspire dreams of quitting your job and sailing to faraway places. It's just that kind of boat. Bill Crealock pushed all the right aesthetic buttons when he first designed the Cabo Rico. Crealock stated in his design notes, "The Cabo Rico 38 hull shape is the one in which everything came together best." Cabo Rico's history is truly unique in the boat building industry. The company was born almost 40 built\_ins ago in a corner of the British Leland assembly plant in San Jose, Costa Rica, through a yachtsman's love for boating. This man, John Schofield, knew first-hand the craftsmanship and work ethic exhibited by Costa Ricans, who are highly skilled and well educated. They have lived with pride in a politically stable democracy for well over 100 built\_ins! Costa Rica, the Switzerland of the Americas. This dedicated and loyal labor force, with an average tenure of over 15 built\_ins, is Cabo Rico's greatest strength. They combine an eagerness to constantly improve and learn new techniques with top skills and true pride in their work. They take the time necessary to give attention to each detail. The expertise and care they apply to every facet of the boat building process is their integral contribution to these boats' "Passage to Perfection." The artisans use only the finest materials available world-wide. The exquisite, honey colored Costa Rican teak is plantation grown and, due to the far-thinking environmental and ecological policies of this prosperous little country, will continue grace these boats. It's been more than 25 built\_ins since the first hull was laid in Costa Rica, and close to 200 boats and thousands of bluewater miles later, it is not cavalier to refer to the Cabo Rico 38 as a classic. You can list it next to other legendary long-keeled cruisers like the Bermuda 40, Bristol 40 and Shannon 38. The first Cabo Rico 38 was completed in 1977. Although the offshore marine industry in Taiwan was beginning to dominate the cruising boat market in the late 1970's, and consumers were warming to the idea of foreign-built boats, building boats in Central America still carried the stigma of the banana republic. Could they really build decent boats in Latin America? The solid construction and sheer beauty of the Cabo Rico 38 proved that indeed they could.

### **Manufacturer's Comments**

Cabo Rico Custom Yachts has quietly, without fanfare, taken its place as the best builder of the finest cruising sailboats in the world. Established in 1965, "Cabo Rico has gained a well- deserved reputation ...

(by) paying close attention to detail", states SAILING MAGAZINE.

Cabo Rico yachts are fast yet comfortable underway, safe and amazingly easy to sail. Balancing beautifully in light or heavy air, the hands off tracking ability combines with good pointing and a fine turn of speed. Elegant and comfortable living accommodations surround you with hand finished, solid teak, plantation grown in Costa Rica. Designed to carry all the provisions and equipment you need for long distance sailing, they will take you quickly and safely anywhere you want to go... and back again.

**Sailing as it is meant to be!**
